Description of the test

Approved COVID-19 tests

Acceptable tests for COVID-19 are quantitative RT-PCR as per link the <https://www.finddx.org/covid-19/sarscov2-eval-molecular/molecular-eval-results/>. Note that other rapid point of care RT PCR, or antigen/antibody tests are not accepted. A nasopharyngeal sample must be the sample tested.

Format of test result

The negative test result must be in the form of an official result from the laboratory that conducted the test. This result should include the following information:

- Laboratory letter head and laboratory contact details
- Patient details
- Date of sample collection
- Type of test conducted
- Name of lab supervisor/staff signing off on the result
- Test platform and assay used
- Type of sample collected
- Date test was conducted
- Lab sample number
