

LOLOMA FOUNDATION OPTOMETRIC / CATARACT SURGERY MISSION 2014

TAVEUNI ISLAND---April 20-29

This mission will consist of an optometric team who will perform vision and eye medical treatment, identify candidates for eye surgery and a cataract surgery team who will be performing surgery.

The hospital is a fully functioning, electrified (daylight hours only) 30 bed inpatient hospital with two resident physicians who live on site. There are childrens, mens, womens and obstetrics wards on site with resident nurses. A very nice operating theater is on site together with a labor and delivery room. There is also a pharmacist who often has

a full stock of medications. We will be bringing our own medications and supplies.

Accommodations will be at **AROHA RESORT** www.arohataveuni.com. Aroha is a small, family-owned venue with a pool, on the water and close to the hospital. **COST: \$3300.00** per person, inclusive of air, local daily transport, accommodation and meals and all taxes.

To reserve space on this mission will require a non-refundable **deposit of \$200.00**. Availability is on a first-come, first served basis. We need optometric volunteers as well as nurses with O.R. experience.

Taveuni Island is part of the Northern Lau group and offers many stellar activities to fill your leisure allocation. There is great diving and snorkeling, hiking on the Lavena Coastal trail and trekking up to the Bouma Waterfalls. The island is known as "the garden island" where Indians and indigenous Fijians all peacefully co-exist in this verdant, rural paradise.

We are looking forward to our 14th very productive year serving the basic medical needs of rural Fijians. Come join us! For those of you who haven't been on our trips, please visit our web page at www.Lolomafoundation.org to learn more about our last trip. We

work hard, always allowing time to take in the physical beauty and culture of this amazing country.

Vinaka!
