

FIJIAN COVID SAFE ECONOMIC RECOVERY FRAMEWORK

The Fijian COVID Safe Economic Recovery Framework outlines a three phased approach to a “**COVID-Safe Economic Recovery**”. It is based on the core principles of stopping importation of the virus, ensuring health system readiness, and COVID-proofing Fijian businesses and society at-large.

careFIJI

The goal of this framework is to break potential chains of viral transmission before they take hold, creating a “new normal” that allows economic activity to safely resume in a manner that protects against a large-scale viral outbreak. The measures within the framework call for basic hygiene and infection controls in places of work and communal activity, minimised social interactions, physical distancing, and adherence to COVID-safe operational plans in businesses, schools, houses of worship and other venues.

	Phase 1 First steps. Gradually opening up businesses and communities with COVID Safe Plans in place	Phase 2 Continuing to safely open more businesses, the education sector and communities with COVID Safe Plans in place	Phase 3 All businesses and communities open with minimum restrictions and COVID Safe Plans in place	
Gathering	Non-work gathering of up to 20	Non-work gathering of up to 100	Non-work gathering to maintain physical distancing with no limitation on numbers	
Workplace	Work from home where possible	Non-work gathering of up to 100	Conditions similar to Phase 2	
	Workplaces develop and implement COVID Safe Plans	Workplaces implement COVID Safe Plans		
	Maintain records of contact tracing details and use of careFIJI app is mandatory	Maintain records of contact tracing details and use of careFIJI app is mandatory		
Education			In addition to Phase 2 conditions, only the conditions below are revised	
	All schools and tertiary institutions remain closed for face to face classes	All schools gradually open for face to face learning with COVID Safe Plans in place	All schools open for face to face learning with COVID Safe Plans in place	
	Computer labs in tertiary institutions open with COVID Safe Plans in place	Tertiary institutions open for face to face learning with COVID Safe Plans in place		
	Remote learning in place	Staggered school breaks to address overcrowding		Normal school breaks
		Canteens to open with COVID Safe Plans in place		
		Full access to school libraries with COVID Safe Plans in place		
		Parents and visitors only allowed at designated drop off and pick up points		Parents and visitors allowed with proper approvals
		Well-ventilated classrooms		
		Regular cleaning of all high-touch surfaces with mandatory safe hygiene protocols		
		Encourage face covering in public transport		
		MHMS must be immediately notified should a staff or student show COVID symptoms		
Records of contact tracing details maintained. Staff and parents must download careFIJI app and activate Bluetooth on mobile at all times	Records of contact tracing details maintained. Staff and parents must download careFIJI app and activate Bluetooth on mobile at all times			

	Phase 1 First steps. Gradually opening up businesses and communities with COVID Safe Plans in place	Phase 2 Continuing to safely open more businesses, the education sector and communities with COVID Safe Plans in place	Phase 3 All businesses and communities open with minimum restrictions and COVID Safe Plans in place
Child care	Child care centres closed	Child care centres to open with COVID Safe Plans	All Phase 2 conditions remain
		Maintain safe hygiene protocols and all high-touch surfaces to be disinfected on a regular basis. This includes toys, play areas and other amenities within the child care centre	
		Employees responsible for children should be vigilant for any signs of respiratory disease and should immediately inform parents and the management of such situations. Any child, parent or employee showing symptoms should not enter the child care centre	
		Intensify cleaning and disinfection efforts around the child care centre and the amenities provided	
		Child-friendly hygiene products, including soap and water, should be made available at all times	
		If child care programming includes nap times, ensure children's mats or cribs are spaced out by 1.5 metres. Consider placing children head to toe in order to further reduce the potential for viral spread	
		Ensure waste is safely collected, stored and disposed of. Remind children to cough and sneeze into a tissue or your elbow and avoid touching your face, eyes, mouth, nose	
		Strict contact tracing information must be collected. This includes records of all employees and guests (name, address, time and numbers)	
		Staff and parents must download careFIJI app and activate Bluetooth on mobile at all times	
Retail and Sales	Retail stores and shopping centres open with COVID Safe Plans	Retail stores and shopping centres open with COVID Safe Plans	All Phase 2 conditions remain
	2 metres physical distancing for customers in the premises and waiting customers immediately outside the premises	1.5 metres physical distancing for customers in the premises and waiting customers immediately outside the premises	
	Use physical queue line controls, such as floor markings, to maintain a distance of 2 metres between customers	Use physical queue line controls, such as floor markings, to maintain a distance of 1.5 metres between customers

		<p>If the traveller shows no symptoms, he or she may be free to enter Fiji but will be advised to closely monitor themselves and report to MHMS if they develop any symptoms</p> <p>Departing travellers must take a swab test if they display any symptoms</p> <p>The costs of COVID-19 tests and any isolation or quarantine related costs, including accommodation or meals will be borne by the traveller</p> <p>To enable safe travelling measures, a dedicated COVID-contained lane would be set up at our international airports for tourists from COVID-contained countries. This would minimise the risk of these tourists coming into contact with other tourists from non COVID-contained countries and provide safety assurance to such persons</p> <p>Mandatory for all travellers to download careFIJI app. Where a traveller does not have a smart phone, the traveller must provide alternate contact details for contact tracing purposes</p>	
FIJI-AUSTRALIA-NEW ZEALAND TRAVEL BUBBLE (BULA BUBBLE)			
		<p>The tourist must produce a health certificate from a hospital or health facility recognised by MHMS in their respective country stating that the tourist quarantined in Australia or New Zealand for 14 days, immediately before departure from Australia or New Zealand, if the tourist quarantined in Australia or New Zealand prior to departure</p> <p>The tourist must produce a recent negative RT-PCR test (<72* hours before departure)</p> <p>The tourist must undergo symptom and temperature checks at the port of departure and at the port of arrival in Fiji</p> <p>Where the tourist has no symptoms or temperature and has been quarantined and tested in Australia or New Zealand, at this point the tourist can start their “Bula Bubble” holiday within the confined VIP Lane</p>	<p>Conditions to be determined COVID-19 Risk Mitigation Taskforce (CRMT)</p>

¹Face covering – masks, cloth coverings, face shield that can be used as a Personal protective equipment

²These periods include; 1 November to 31 January – Christmas and New Year, month of April – Easter Weekend, and School Term breaks During. Any other periods, inter-island vessels generally operate on 30 – 40 percent capacity thus physical distancing is naturally maintained

*The sample must be collected for testing at most 72hrs (3 days) before departure for Fiji

	<p align="center">Phase 1</p> <p>First steps. Gradually opening up businesses and communities with COVID Safe Plans in place</p>	<p align="center">Phase 2</p> <p>Continuing to safely open more businesses, the education sector and communities with COVID Safe Plans in place</p>	<p align="center">Phase 3</p> <p>All businesses and communities open with minimum restrictions and COVID Safe Plans in place</p>
		<p>The tourist must go into mandatory isolation at a Government-designated isolation facility and take a swab test if they display symptoms. The MHMS protocol for dealing with suspected cases will be applied. If the test is positive, the tourist must remain in isolation under the care of MHMS and if the test is negative (and he or she has not been quarantined in Australia or New Zealand prior to arrival) he or she will be required to go into 14-day mandatory quarantine at a Government-designated location</p> <p>The tourist must go into 14-day mandatory quarantine at a Government-designated location if he or she shows no symptoms and were not quarantined in Australia or New Zealand</p> <p>The tourist in quarantine will be subject to compliance checks and can be fined for breaches of quarantine</p> <p>Upon completion of the quarantine period, the tourist will be required to take a swab test if he or she was not swab tested when in isolation. A negative result will enable the tourist to be released from quarantine. If the tourist tests positive, he/she will be transferred to a Fijian Government-designated isolation facility, until the tourist has fully recovered</p> <p>The cost of the mandatory isolation or quarantine, which includes test, accommodation, meals and other isolation or quarantine related costs will be borne by the tourist</p> <p>The MHMS and MCTTT will designate 'Vacation in Paradise (VIP) Lane' which are specific pathways where tourists may spend their holiday in Fiji. These will be areas demarcated to ensure there is minimal contact with Fijians and, where there is contact, ensuring that such contact is controlled and limited based on MHMS guidelines, including ensuring regulation of the mode of transport from and to the airport</p> <p>Mandatory for all travellers to download careFIJI app. Where a traveller does not have a smart phone, the traveller must provide alternate contact details for contact tracing purposes</p>	

	<p align="center">Phase 1</p> <p align="center">First steps. *The sample must be collected for testing at most 72hrs (3 days) before departure for Fiji

	Phase 1 First steps. Gradually opening up businesses and communities with COVID Safe Plans in place	Phase 2 Continuing to safely open more businesses, the education sector and communities with COVID Safe Plans in place	Phase 3 All businesses and communities open with minimum restrictions and COVID Safe Plans in place
		<p>Subject to the approval of the MHMS, the film cast or crew will be quarantined in an isolated area or island for the mandatory 14-day period. A cast or crew will be kept separated from locals with locals advised to maintain their distance for their own benefit. Furthermore, contact with Fijians will be kept to an absolute minimum, including ensuring that where possible the cast and crew are primarily engaged with their initial transport personnel only</p> <p>A cast or crew member in quarantine will be subject to compliance checks and can be fined for breaches of quarantine</p> <p>Departing cast and crew members must take a swab test if they display any symptoms</p> <p>The costs of COVID-19 tests and any isolation or quarantine related costs, including accommodation or meals will be borne by the production company</p>	
	Mandatory for all travellers to download careFIJI app. Where a traveller does not have a smart phone, the traveller must provide alternate contact details for contact tracing purposes	Mandatory for all travellers to download careFIJI app. Where a traveller does not have a smart phone, the traveller must provide alternate contact details for contact tracing purposes	
Yachts (Blue Lane)	Foreign yachts are not permitted to enter Fijian waters	<p>Prior to Arrival</p> <p>Those who wish to enter Fiji must declare their interest directly with their agent and Fijian Border Agencies, at least five working days prior to departure. The border agencies will then notify the Fijian Government through the Ministry of Commerce, Trade, Tourism and Transport. Approval shall be granted on a case-by-case basis</p> <p>The passenger or crew member must produce a recent negative RT-PCR test (<72* hours before departure)</p> <p>Vessels that are given approval to arrive in Fijian waters will be subject to the following:</p>	Conditions to be determined COVID-19 Risk Mitigation Taskforce (CRMT)

*The sample must be collected for testing at most 72hrs (3 days) before departure for Fiji

	<p align="center">Phase 1</p> <p>First steps. Gradually opening up businesses and communities with COVID Safe Plans in place</p>	<p align="center">Phase 2</p> <p>Continuing to safely open more businesses, the education sector and communities with COVID Safe Plans in place</p>	<p align="center">Phase 3</p> <p>All businesses and communities open with minimum restrictions and COVID Safe Plans in place</p>
		<p>On Arrival</p> <p>Sailing days to be considered as part of quarantine sailing period. The route will be verified through the Automatic Identification System</p> <p>If there are 14 days of uninterrupted sailing verified by the Automatic Identification System, the passengers and crew will undergo symptom and temperature checks and a swab test maybe required on arrival</p> <p>The passengers and crew must go into mandatory isolation at a Government-designated isolation facility and take a swab test if they display symptoms. The MHMS protocol for dealing with suspected cases will be applied. If the test is positive, he or she must remain in isolation under the care of MHMS but if the test is negative he or she will be released</p> <p>If the passengers and crew display no symptoms, the yacht may be permitted to visit other ports within Fiji</p> <p>If there are less than 14 days of uninterrupted sailing, the yacht will be quarantined at a safe harbour in Fiji under surveillance by the Republic of Fiji Military Forces (RFMF) for the period of remaining days. The period of remaining days will be calculated by subtracting the number of uninterrupted sailing days from 14 days. Uninterrupted sailing days are days where the yacht has not been embarked by other persons or where the persons on board have not disembarked. For example, a yacht sailing seven uninterrupted days would only be required to quarantine for seven days in Fiji, followed by symptom and temperature checks and a swab test maybe required</p> <p>During the period in which the yacht is quarantined in a safe harbor the MHMS will monitor the yacht and its crew. In the event the MHMS is unable to devote resources to monitoring yachts, private medical practitioners can be accredited by MHMS to undertake this, subject to conditions which may be set by MHMS</p>
