

MINISTRY OF HEALTH AND MEDICAL SERVICES

MEMORANDUM

From: Head – Fiji Pharmaceutical & Biomedical Services Center **Date:** 23/08/2021

To: **The Fiji Pharmaceutical Society and All the Private Pharmacies Fiji-wide**

Subject: Private General Practitioners Scheme Access to Medicines under the Free Medicine Scheme

1. As you may be aware the Fijian Government had recently announced the implementation of the Private General Practitioners Scheme. A total of Seventeen (17) General Practitioners have been selected to provide patient care under the PPP-GP Scheme (list of GPs attached)
2. In 2021-2022 National Budget, it was announced that for those eligible, the Free Medicine Programme will continue and will now also apply to patients who visit the approved GPs under the PPP-GP Scheme.
3. Thus we would like to inform all The Private Pharmacies, that patients who were not eligible to access medicines under The Free Medicine Program will now under the current PPP-GP Scheme be able to access FMP services from any of the Private Pharmacies Fiji-wide. A specially designed stamp (template attached) would be used by the 17 selected GPs on the patients prescriptions to indicate that the recipient is eligible to receive medicines under The Free Medicine Scheme.
4. Free Medicine Scheme isn't optional and all the Retail Pharmacies are mandated to provide FMP services as required by the Law.

Thank you.

.....
Jeremaia Mataika (Mr)
Head of Fiji Pharmaceutical & Biomedical Services
